

Exciting Research Opportunities at Ascension Centre for Research and Analytics (ACRA)

We are expanding our research team and looking for motivated individuals with Economics/related social science and Data Science/Analytics background. The person/s should have sharp analytical mind. If you're passionate about research, economic/business, and data analytics, this is for you!

Current Openings:

1. **Interns (Three):** Final-year students or fresh graduates in Economics/MBA with an interest in research and also with good communication skills
2. **Research Associate/Analyst (One):** Post Graduates in Economics/Related social science courses including MBA (Fresher/1 to 2 years' experience) – With strong analytical skills, hands on experience in dealing with data, basic knowledge of Stata/Python, good understanding about econometrics and good writing skills.
3. **Researcher Data Analytics (One):** B. Tech/M. Tech (Freshers or with 1 to 2 Years' experience) - with hands-on experience in data analytics using Python and good theoretical understanding of modelling techniques used in analytics

Required Skills:

- Background in Economics (preferable but not mandatory)
- Strong analytical thinking
- Problem solving capabilities
- Proficiency in Stata/Python (especially for categories 2 & 3)
- Hard-working, proactive and responsible work ethics

If you or someone you know fits int any of these profiles, please contact Ajit Kumar Dash,
